

## ENVIRONMENTAL POLICY

18/08/2008

Buildpro Ltd is committed to principles of sound forest resource management. It is our intent that none of our activities, as a producer, processor, supplier and trader of timber and building products, threatens any social, economic, ecological, or other needs of present and future generations.

As an FSC certified company, Buildpro complies with all of the relevant principles and policies of the Forest Stewardship Council.

Principles and policies of particular focus include and are not limited to:

- Compliance with all applicable laws
- Compliance with all stipulated FSC procedures relating to the documentation of FSC certified products
- The continual monitoring of improvements in environmental practice that may be adopted into and improve Buildpro policy and procedure
- Regular formal discussion promoted by senior management and inclusive of staff at all levels on how we can reduce any adverse environmental impact of our activities
- Promotion of ways in which our waste and pollution can be reduced
- Discussion with suppliers and customers on mutual promotion and improvement of environmental policy and practice.
